Deering High School – Financial Aid Pilot Program for Juniors

I'm looking forward to working with you. I'm hoping this approach to financial aid will help families learn how to easily estimate their real cost of college. If successful I hope it can serve as a model for more students in the future. Call or email me throughout the program if you have questions. *Bill Smith*

This questionnaire collects information that will help keep in contact with you during the program and that can affect the amount of financial aid you may qualify for.
